

# Ashly Protea™ Module Now Available on the Compass Control®

Ashly Protea™ DSP Matrix Processors are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital® has developed a driver and a pre-configured GUI template for the Compass Control® system to interface with Ashly's widely-popular Protea™ ne24.24M Matrix Processor and Protea™ 4.8SP System Processor. Compass Control® system provides Protea™ users with multi-zone control via RS-232 or IP control via elegant interface, while having an integrated control system under their fingertips with additional video, lighting, climate, security, and automation controls.

## Module Features:

- › Bi-Directional Driver Control over RS-232 and IP
- › Attenuation Control
- › Preset Control
