

CasaTunes® Module Now Available on the Compass Control®

CasaTunes® Multi-Room Music Systems products are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with CasaTunes® Multi-Room Music Systems. Compass Control® system enables CasaTunes Multi-Room Music Systems users with iOS or Android devices access to local or shared music libraries, or popular Internet radio and music services, while having an integrated control system under their fingertips with additional video, lighting, climate, security, and automation controls.

Module Features:

- › IP Control
- › Music browsing
- › Queue control
- › Playback control
- › Zone control and settings
- › Streamer control
- › Zone selection
