

Honeywell® Tuxedo & Vista20P Security Panel Modules Available on the Compass Control®

Honeywell

Honeywell Tuxedo and Vista20P Security panels are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Honeywell Tuxedo and Vista 20P security panels. Compass Control® system provides control over Honeywell HVAC and security needs via elegant Compass Control® iOS or Android interface and Honeywell web app, while having an integrated control system under their fingertips with additional video, audio, lighting and automation controls.

Module Features:

- › Control Over IP or RS
- › Control thermostat, security and more over IP using the Web App
- › Arming/Disarming System
- › Full system status updates
